AFRICAN SEMINARS

The African seminars in Brazzaville, Congo, will remain a major step in the history of the Raelian Movement in Africa. Last year in Ghana, it was the first major encounter between the African Raelians and the Prophet Rael. This year in Congo, he launched them in an adventure that we may not fully grasp yet...

« To save the planet, we must start with saving Africa! And to save Africa, we must create the United States of Africa and you must carry this mission”. “Gather all the “Africanians”, that is to say, all those who want to act in order to make this continent the richest of all the continents, whether these people are Raelians or not, whether they are Africans or not. Thanks to the wealth of its soil and the wealth of its people, this continent can become the richest.”

« To create the United States of Africa is a first step. It could be created quickly by gathering all the African traditional chiefs and federating all the ethnic groups without considering the actual borders that have been drawn by the colonials. This meeting could take place here in Congo at the request of President Sassou Nguesso, if he wants to, as he is himself one of these traditional chiefs.”

The 550 African Raelians coming from 15 different countries committed themselves to follow that direction with a lot of emotion and they followed with passion all the awakening teachings that were given to them during the week.

Amongst the missions given to the members of the African Raelian Movement there was the one to promote the new technologies, including Genetic Modifications to end starvation in Africa. He reminded us that this was the only way to fully stop famine and then make the population of farmers finally rich. Hortense Dodo, an expert in genetic modification who was born in Ivory Coast, made a fantastic expose where she stressed out the fact that it isn't normal that this continent starves while the majority of its population is farming. It is urgent to produce what Africa needs. Already the Burkina Faso teams have been able to

change the public perception on GMO in their country, thanks to their mobilization, and it is today possible to implement GMO projects in Burkina Faso. It is now the turn of the other countries on this continent to achieve the same.

The Prophet Rael said several times that this continent will be the richest of all if it conducts this cultural and political revolution and gets rid of the influence of the colonizers fully, especially associating to other countries that have been previously colonized like China and India...

To reach the seminar's location, the huge “Palace of Government” (our deep thanks to the Congolese Government for welcoming us so comfortably), some of us had to go through real ordeals. A group from Pointe Noire were in a train that derailed and had to walk 20 miles to reach the nearest station and catch another train. It took them 3 days and nights to finally reach us, happy and exhausted.

The mobilization of the African Raelians to receive the teachings of the Prophet Rael is really moving. Two professors from high school even took their pupils to the teachings as

they knew they would get the finest and latest scientific information on how our body and brain function. Many expressed the desire of young African to hear the last Prophet...

This is one of the reasons why the Prophet Rael is calling all the Raelians of the world for help with these words:

“I wish to help all the African students, school boys and girls, to attend the seminars and I am asking all the Raelians of the world to collect money for operation "Raelian Africa" in order to offer to all African school boys and girls the means to attend the seminar for free if possible.”

The operation is being implemented now and we will let you know soon where to make your donation for this very special cause as most of the young people who came had no money to travel and no money to eat during the whole week. Thanks to a few Raelians in Europe who heard about the situation and wired some money, they were able to come, and the African fraternity made them all eat. Tai is confident that if we start organizing it now, we may have to rent a stadium to gather them all next yearJ . Let’s make it happen together!!!

The Prophet Rael is the Prophet who will end starvation on Earth and then bring eternal life.... There is no better mission than following him and this is what more than 200 newcomers decided at the end of the seminar when they joined the structure of the Raelian Movement.

A few new guides were nominated and 3 new National Guides.

Yves Boni for Ghana

Gildas for South Africa

Landry Gomat for Congo Brazzaville as Jerome, the previous national guide, is now in charge of all the Central African states.

We wish you, Yves, Gildas and Landry a great success in your new endeavour....

Welcomed on stage....

During an interview for the TV show Homéostasie, aired on Christmas Day at prime time... generated lots of reactions among the local religious representatives J

Shaking hands with all the participants

Adia hides her tears as the Prophet Rael just signed her book.

With Tai (left), happy Continental Guide at the end of a very successful seminar, and Landry Gomat (right), new national guide of Congo.

With the 3 new National Guides, Yves Boni **on the left**, Gildas **on the right** and Landry.

With Honorable Minister Henry Djombo who expressed the wish to see him

Monsieur le Ministre Henry shows to the Raelian delegation the ping-pong school he has put in place with his own means, in order to help the kids who are begging in the street and take them out of their situation. He has 50 students as of today...
He offered his last book to the Prophet Rael, a book where he denounces corruption in Africa at every level... An Africanian for sure **J**

Congolese Dances at the programme of the shows with the local tam-tams

Some of the African Raelian guides

More images soon on Raelianews.org with a video showing the highlights of this very very special seminar...

While the Prophet Rael was about to leave Africa, several requests for an audience with him were still reaching his assistants and the journalist at the show Homeostasie insisted to have a second hour interview... Before asking his last question, the journalist surprised us all saying to our Beloved Prophet : “ I love you Prophet”.... I believe it is the first time in our Raelian history that a journalist expresses himself that way publicly. Congo is really a country for many “firsts”. J

During this interview, the Prophet Rael reminded us of the importance of having a dream as for a dream to become reality, there must be a dream. During the week he used this image : to someone who has a bowl of rice, it is nice to give a second bowl, but it is better if you give him a dream”

The dream of the African Raelians is alive, vivid, majestic and pure. The Prophet Rael reaffirmed it today one more time; he is here for all the continents, but he is first and foremost here for Africa as he must save Africa to save the planet...
